PROFESSIONAL SUMMARY

SAP integration developer with 2 years of production experience across **SAP Integration Suite (CPI)** and **SAP Business ByDesign**. Skilled in building end-to-end iFlows with message mapping, Groovy scripting, data transformation, routing and exception handling over REST, SOAP, OData, IDoc and SFTP, and in securing bank integrations with PGP, hybrid encryption and certificate management. Extends SAP ByDesign using ABSL, custom business objects, UI scripting and the Cloud Applications Studio (SDK). Experience includes SAP PI/PO to Integration Suite migration, SAP S/4HANA Cloud bank integrations and e-invoicing.

WORK EXPERIENCE

NoblQ Pvt Ltd, SAP Developer – SAP CPI & ByDesign 11/2024 – Present | Salem, India

- Design and develop SAP ByDesign extensions and SAP CPI integration solutions to support business process and data integration needs.
- Design and build CPI iFlows using REST, SOAP, OData, XML and JSON, including routing, transformations and exception handling.
- Develop SAP ByDesign extensions using the SDK, ABSL and custom business objects.
- Collaborate with functional and technical teams to deliver SAP ByDesign and CPI-based solutions.

TECHNICAL SKILLS

SAP Integration Suite (CPI): iFlow Development, Graphical Message Mapping, Value Mapping, Content Modifier, Splitter, Gather, Router Conditions, Exception Subprocesses, Message Monitoring & Trace, Process Integration, API Management, SAP PI/PO Migration, SAP BTP

SAP ByDesign / C4C: ABSL (Advanced Business Scripting Language), SAP Cloud Applications Studio (SDK), UI Scripting, Custom Business Objects, Mass Data Run (MDRO), Object Value Select (OVS), Extension Fields, Custom Print Forms, SAP C4C

Web Services & APIs: REST, SOAP, OData, IDoc, HTTPS, SFTP, Web Services, WSDL, XML, JSON, API

Security: PGP Encryption, Hybrid Encryption, Certificate Management, SFTP Authentication

Programming & Scripting: Groovy, XSLT

Tools: Postman, SoapUI

SAP Systems: SAP S/4HANA Cloud, SAP Business ByDesign, SAP PI/PO, SAP BTP Integration Suite

SAP CPI INTEGRATION PROJECTS (NOBLQ)

PI/PO to SAP BTP Integration Suite Migration | Sohar Aluminium, Oman Aug 2026 – Present

- Analysed existing PI/PO interfaces and dependencies and migrated integration flows to SAP Integration Suite.
- Recreated message mappings, routing logic and communication configurations in CPI iFlows.
- Configured sender/receiver adapters and resolved mapping, connectivity and message-processing issues during testing.

SAP S/4HANA Cloud – City Union Bank Integration Jul 2026 – Present

- Developed an iFlow to retrieve payment medium files from SAP S/4HANA Cloud and transfer them to the bank through SFTP.
- Configured SFTP authentication and secure transmission; implemented file processing, message handling and exception handling.
- Supported troubleshooting to ensure reliable payment-file delivery.

SAP S/4HANA Cloud – ICICI Bank Integration Jul 2026 – Present

- Worked on virtual account validation, payment confirmation processing and journal entry creation integrations.
- Designed transformation and validation logic, including duplicate-payment verification.
- Configured REST APIs, OData services, hybrid encryption, PGP security and certificate management; supported testing and post-go-live monitoring.

SAP ByDesign – Spain SII-AEAT Integration via SAP CPI 2026 | Preproduction

- Worked on outgoing Spain SII connectivity and configuration through SAP CPI, from SAP Business ByDesign to the AEAT preproduction environment.
- Created a manual invoice for testing and investigated the VAT Return Run process for outgoing invoice submission.

SAP BYDESIGN PROJECTS (NOBLQ)

SAP ByDesign – Dipharma: Production Document Automation Delivered

- Developed a custom solution to automate "Attachment 5" production documents using the Production Order Printing Center, custom print forms, extension fields and PDF generation.
- Enabled bulk upload of extension-field data for 750+ products to support large-scale master data migration.
- Delivered the solution successfully to the client.

SAP ByDesign – FNE E-Invoicing Integration Delivered

- Built a custom Customer Invoicing Handler business object with PID tracking and OData-based scripts to submit e-invoices to a government portal, storing the responses back in the BO.
- Added custom fields and validation logic to prevent submission errors; delivered end to end.

EDUCATION

Master of Computer Applications (MCA) – Savitribai Phule Pune University 2022 – 2024 | CGPA: 8.0

Bachelor of Computer Applications (BCA) – North Maharashtra University (NMU) 2019 – 2021 | CGPA: 9.5

CERTIFICATIONS

- SAP Cloud Platform Integration (CPI) – Udemy
- SAP Cloud for Customer (SAP C4C) – Technical Training, Udemy
